## **Antitrust Statement**

It is the policy of Pacific-West Fastener Association and its members to comply with laws and regulations applicable to their activities.

Among other things, Pac-West members and leaders are subject to antitrust laws that prohibit fixing prices, allocating geographic markets, unfair or deceptive practices, setting profit levels; boycotts, and most other anticompetitive actions. Pac-West will neither permit nor condone anti-competitive behavior, whether willful or inadvertent, in connection with any Pac-West activity.

Additionally, discussion among two or more people that suggests intentional or unintentional fraudulent activity is illegal.

Conversations involving discussion of matters that may violate applicable laws and regulations should always be avoided, even in private settings, and cannot be tolerated in connection with any Pac-West meeting or activity. Persons engaging in possible violations of Pac-West policy during meetings or activities will be required to cease such activities, and if necessary, are subject to ejection by the presiding officer of the meeting.

Questions concerning antitrust or other laws or regulations connected to Pac-West activities should be referred immediately to the chief staff executive.

## **No Recordings**

No audio, video, or other form of recording of any meeting (including member forums, informal meetings and gatherings, task forces, committee, and subcommittee meetings) of the corporation be permitted other than as may be authorized by the Board of Directors, in its sole discretion, by written resolution. In the event that a recording of a meeting is authorized, said recording shall be destroyed upon approval of the minutes of the meeting or one hundred (100) days, whichever is sooner, unless prohibited by law, court order, or written directive of the Board of Directors

## GALVANIC CORROSION PREVENTION

- **Prevents** galvanic corrosion between steel fasteners and the most extreme lightweight materials (magnesium, carbon fiber, aluminum, etc.)
- **Eliminates** the need for additional corrosion barriers (ex. washers)
- NyShield® is good to at least 125°C (257°F) under load (bearing surface of fastener)
- NyShield® is good to at least 195°C (383°F) in a continuous use environment (not under load)

## YOUR TOOLKIT FOR PRE-APPLIED FASTENING SOLUTIONS

| SEE [nylok.com](http://nylok.com) FOR MORE INFO |

The GLOBAL LEADER in value added fastener solutions

A Marmon / Berkshire Hathaway Company

## MECHANICAL LOCKING ( Reusable )

*Eliminates the need for safety wire, locknuts and adhesive bottles*

### Torq-Patch® (Tuflok®)

- Industry standard and most commonly used
- Available in a variety of colors
- Temperature Range: -56°C (-70°F) to +121°C (+250°F)

### Pellet / Strip

- Ideal for non-standard sizes and materials
- Available in a variety of colors
- Temperature Range: -56°C (-70°F) to +121°C (+250°F)

### Nytemp®

- Used in high temperature applications up to 232°C (450°F)

### NylokHD®

- For non-standard applications and reusability greater than 5 times
- Temperature Range: -56°C (-70°F) to +121°C (+250°F)

## CHEMICAL LOCKING ( One Time Use )

*Eliminates manual application from adhesive bottles*

### Precote® 30

- Medium breakaway strength
- Temperature Range: -60°C (-75°F) to +150°C (+302°F)

### Precote® 80

- High breakaway strength
- Temperature Range: -60°C (-75°F) to +200°C (+392°F)

### Precote® 85

- High breakaway strength, low installation friction, joints with tight COF tolerances
- Temperature Range: -60°C (-75°F) to +200°C (+392°F)

### ND Microspheres® Epoxy

- Microencapsulated
- 593S (Blue) • 1193S (Orange)
- High strength locking
- Temperature Range: 593S: -50°C (-58°F) to 116°C (+241°F) 1193S: -50°C (-58°F) to 149°C (+300°F)

Precote® is a registered trademark of omniTECHNIK. 3M is a trademark of 3M Company used pursuant to license with Nylok LLC.

## UNDERHEAD SEALING *Eliminates o-rings and gaskets*

### NySeal® 2.0

*The King of Under Head Sealants*

**NEXT LEVEL DURABILITY UNDER HEAD SEALANT**

- **Durable – provides for multiuse installations**
- Does not squeeze out of joint upon compression
- Temperature Range: -60°C (-76°F) to +150°C (+302°F); Note: Product can withstand higher temperatures for short durations i.e. e-coat process cycle 177°C (350°F)/30 mins typical

### Nyseal®

- Seals against hydraulic fluids, oils, gasoline, water, moisture, etc.
- Temperature Range: -40°C (-40°F) to +66°C (+150°F)

### Nyplas®

- Seals against water, moisture, air and dust
- Temperature Range: -40°C (-40°F) to +150°C (+302°F)

### Precote® 200

- Seals against water, moisture, air and dust
- Temperature Range: -40°C (-40°F) to +100°C (+212°F)

## THREAD SEALING

### Precote® 5

- Provides sealing in applications involving air and automotive fluids
- Temperature Range: -60°C (-76°F) to +160°C (+320°F)

Precote® is a registered trademark of omniTECHNIK.

## OTHER SOLUTIONS

### Nystay®

- Holds parts in place during assembly
- Eliminates labor-intensive retainers, plastic washers, rings and clips
- Temperature Range: -40°C (-40°F) to +66°C (+150°F)

### Nytorq® and Precote® Top 300

- Lubricant used to reduce installation torque
- Eliminates ergonomic issues caused by high installation torque
- Temperature Range: -70°C (-94°F) to +120°C (+248°F)

### Nycote® and Nycote® Plus

- Thread masking that prevents weld spatter and e-coat adhesion issues
- Eliminates manual masking preparations, re-tapping and thread cleaning
- Main application – weld studs, weld nuts and self-clinching fasteners
- Temperature Range: -70°C (-94°F) to +120°C (+248°F)

### Nyplate®

- Lubricant used to prevent galling /seizing and cold welding during assembly
- Reduces torque scatter for easy disassembly even after heat exposure
- Temperature Range: -60°C (-76°F) to 850°C (1562°F)

[nylok.com](http://nylok.com)

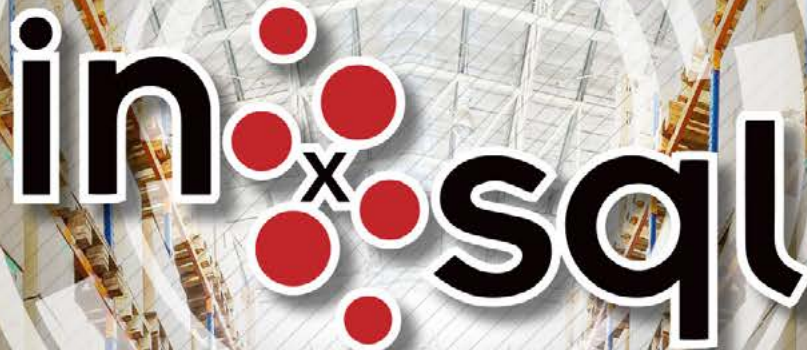

For over 75 years, NYLOK® has been recognized as a leading supplier of value-added fastener coatings, with sales and licensees worldwide. Engineering innovative and workable solutions to specific fastener issues has been, and will continue to be, NYLOK®'s primary mission.

## MECHANICAL

Testing the mechanical properties of materials provides information on its strength and durability.

- Fasteners
- Hardness
- Impact
- Rotational Capacity
- Shear
- Tensile
- Torque

## METALLOGRAPHIC

Metallographic testing utilizes light microscopy in the analysis of metal at the granular level.

- Case Depth
- Macrostructure
- Microhardness
- Microstructure
- Plating Evaluation

## NONDESTRUCTIVE

Nondestructive testing examines parts for discontinuities. These tests do not mark or otherwise harm the part.

- Magnetic Particle (MT)
- Penetrant (PT)
- Visual (VT)

## CHEMICAL/CORROSION

Chemistry and corrosion testing analyses the elemental makeup of material and the effects of corrosive chemistry on it.

- Analytical Chemistry
- Material Identification
- Salt Spray

- Quality
- On Time Delivery
- Team Members
- Customer Engagement
- Communication
- Growth
- Innovation/ Design
- Partnership

## FORGING THE FUTURE

*"FORGING THE FUTURE" is more than a catchy fastener phrase. Parker Fasteners takes the future of its business very seriously and we show this by investing in our people, facility, equipment, and customers. We are not just another fastener manufacturer; we are **forging** a new path for our entire industry for tomorrow.*

## OUR OFFERINGS

- Hot/Cold Heading
- Knurling
- Lap-Free Thread Rolling
- Fillet Rolling
- Head & Shank Drilling
- Head Turning
- Pointing
- Trimming
- Centerless Grinding
- Cadmium
- Black Oxide
- Silver
- Passivation
- Aluminum Ion Vapor
- Nickel Teflon
- Dry Film Lube
- Socket Head
- Hex Head
- Pan Head
- Fillister Head
- Low Head
- Button Head
- 12 Point
- Spline
- 82° Countersunk
- 100° Countersunk
- Specials Per Print
- UNC
- UNF
- UNJ
- Metric Threads
- Zinc Nickel
- Locking Elements

# Exceptional Support for the Fastener Industry

## Cyber Security

Complete cyber security services, data recovery, and disaster protection with quick response time in any emergency

## Helpdesk Support

Friendly, experienced, and responsive technical support - Seamless solutions with only one number to call

## Customized Packages

World Class management for a small business cost - We will custom tailor your plan to fit YOU and YOUR business's budget

## Who We Are

Founded in 2013, WTC is a trusted managed services provider specializing in delivering reliable and expert IT support to the fastener industry. Serving clients from our locations in California and Arizona, we provide comprehensive remote and onsite solutions to promptly address any IT issues.

## What We Do

WTC provides customizable business solutions tailored to your unique needs. Focused on innovation, cutting-edge technology, and a deep understanding of the fastener industry, we help overcome business challenges and unlock new opportunities.

# WE OFFER THE MOST COMPREHENSIVE SOFTWARE SOLUTION FOR STREAMLINING YOUR WORKFLOW

## DIRECT CONNECT

*your direct link to the supply chain*

DIRECT ACCESS TO YOUR MASTER SUPPLIERS' STOCK AND PRICING FROM WITHIN YOUR INXSQL SOFTWARE, TO USE FOR QUOTING, PURCHASING, AND SALES

**Fastener Item Nomenclature** » If you're looking for a new part numbering system, build a smart item number system so your part #'s mean something with the item nomenclature built into your INxSQL Software. Merge old part numbers to new with an import to keep all history intact.

**Order Automation** » Uses artificial intelligence (AI), similar to facial recognition software. Once orders from a customer come into your email, the order format is learned and as more orders come in the AI adapts and evolves to eliminate errors.

**SmartCert** » Innovation in Cert Transfer: SmartCert will expand the automation INxSQL provides in cert management. As a universal platform, SmartCert will give you more control over inbound documentation and reduce customer support needs in resending paperwork.

**Wireless Warehouse Management Program (WM)** » Go wireless in the warehouse. Pick, pack, ship, receive, and put away product using wireless handheld scanners, eliminate being tied to a computer. One database for real time integration, no syncing necessary.

**Vendor Managed Inventory (VMI) and Web VMI** » Whether it's consignment locations or bin stocking for your customers, we've got it. The VMI program runs on ruggedized handhelds, or smart phones/devices. Send back your orders while out in the field, replenish those bins quickly and easily with scanner technology.

**Credit Card Processing** » Fully integrated, INxSQL's credit card processing allows customers to pay over the phone, over the counter with swipe devices/chip card readers or at check out on your website. INxSQL gives you 3 gateway partners to choose from for your Point to Point Encryption, taking your network out of scope for PCI Compliance.

**Avalara Tax Service** » Managing sales tax manually is risky business. With laws changing and tax compliancy getting more complicated, take the guesswork out of it with INxSQL's integration with Avalara by Avalara. Avalara is a simple tax solution that calculates the tax rate per taxable state by the address, automatically.

**Ecommerce Websites** » INxSQL Websites offer full ecommerce shopping carts and customer portals with real time integration to your INxSQL Software. Whether it's increasing sales or decreasing those non-revenue producing phone calls by allowing customers to check account information, we have you covered.

**INxMOTION** » Sales and Contact Management on your smart devices. Place quotes/orders, check stock levels, schedule calls/appointments and create follow ups. One database, real time integration with your INxSQL Software.

**Delivery Signature Capture (DSC)** » Capture signatures at delivery using ruggedized handhelds or your smart phones/devices. Send back signatures or images while in the field to be printed on invoices as proof of delivery.

**Dashboard Analytics** » INxSQL's Dashboard Analytics allows you to view your data the way you want to see. Whether it's a line graph, bar graph, heat map, table views, pie chart, everyone has their flavor. Build custom dashboards unique to each user.

**Item Fabrication** » Manufacturing at a one to one level. Track your items as you plate, rework or kit them, in house or out of house.

**POS Entry** » Manage your store front and will call in a timely fashion with the ability to scan items and check out your customers all from one screen.

**SQL Server Reporting Services (SSRS)** » If the 400ish reports in INxSQL don't cover it, SSRS will. Build custom reports and automatically have them sent on a routine schedule.

**Web Sales Order Quote Reply** » Speed up your sales process. Send quotes to customers and allow them to update the quote to an order and send it back into your INxSQL Software as an order.

**Web Request for Quote Vendor Reply (RFQ)** » Send RFQ's to multiple vendors and have replies/pricing return directly back in your INxSQL software. Using INxSQL's RFQ comparison worksheet cut back hours per WEEK of sourcing and purchasing time.

**Web PO Expedite & Confirmation Update** » Allows a reply on a web portal for PO confirmations and expedite requests. Link can be added to the purchase order form for cost and shipment date updates, as well as the expedite form for date updates.

**Web SO Blanket Upgrade** » Allows your customers to manage their blanket order releases online. Links with the INxSQL eCommerce website, which also give the visibility of on order/availability, and usage information.

**Manufacturing** » Item Fabrication on Steroids. INxSQL Manufacturing tracks the multi-step process it takes to create your items. Track machine schedules, labor, and job times from the PC or the INxSQL WM Program.

**Quality Control (QC)** » QC your inventory right through INxSQL! Don't depend on outside spreadsheets any longer that don't sync up with your software. Inspect, approve and reject inventory before it's ever sent to the customer.

**Service Management** » Does your company provide tool repair services? Onsite maintenance of products for your customers? If either apply, service management is the tool for you. Track the serial numbers of equipment at customer's sites, enter work orders to track time and bill out parts used for repairs all from the fully integrated service management module.

**Electronic Data Interchange (EDI)** » EDI is the computer-to-computer exchange of business documents in an electronic format between business partners. INxSQL's integrated EDI does the mapping and writing of the EDI forms eliminating huge costs for this typical third party service.

**Rental Processing** » If you do any rentals we have you covered. Scan a Driver's License and create a customer account right on the fly. Keep track of your rental inventory by using our check out / check in functions with INxSQL's rental processing.

**Virtual Fax** » Send and receive faxes via email to your customers or vendors fax machine. Get rid of your dedicated office phone line and fax machine and make faxing easy. with no hang-ups or failed faxes.

INDUSTRIAL THREADED PRODUCTS

## ITP Celebrates its 45th Anniversary and More Exciting Milestones:

**Key Acquisitions, TONE Partnership,  
and Bristol's Upcoming Relocation.**

### **Ababa Bolt Acquisition**

In the first year after acquiring Ababa Bolt, ITP smoothly integrated its operations, using its global supply chain to improve services and efficiency. Since its founding in 1975, Ababa Bolt has built a strong reputation and continues to provide excellent service.

Visit their website at [abababolt.com](http://abababolt.com) to learn more.

### **Bristol Machine Company Integration**

After acquiring Bristol Machine Company [BMC] in October 2024, ITP has expanded into key sectors such as construction, marine, and renewable energy. In addition to their years of experience, BMC is a distributor of TONE's advanced torque management solutions for various sectors. ITP is set to relocate BMC's manufacturing facility to the Inland Empire by Q3 2025.

Learn more at [bristolmachinecompany.com](http://bristolmachinecompany.com)

## **ITP Hits 45!**

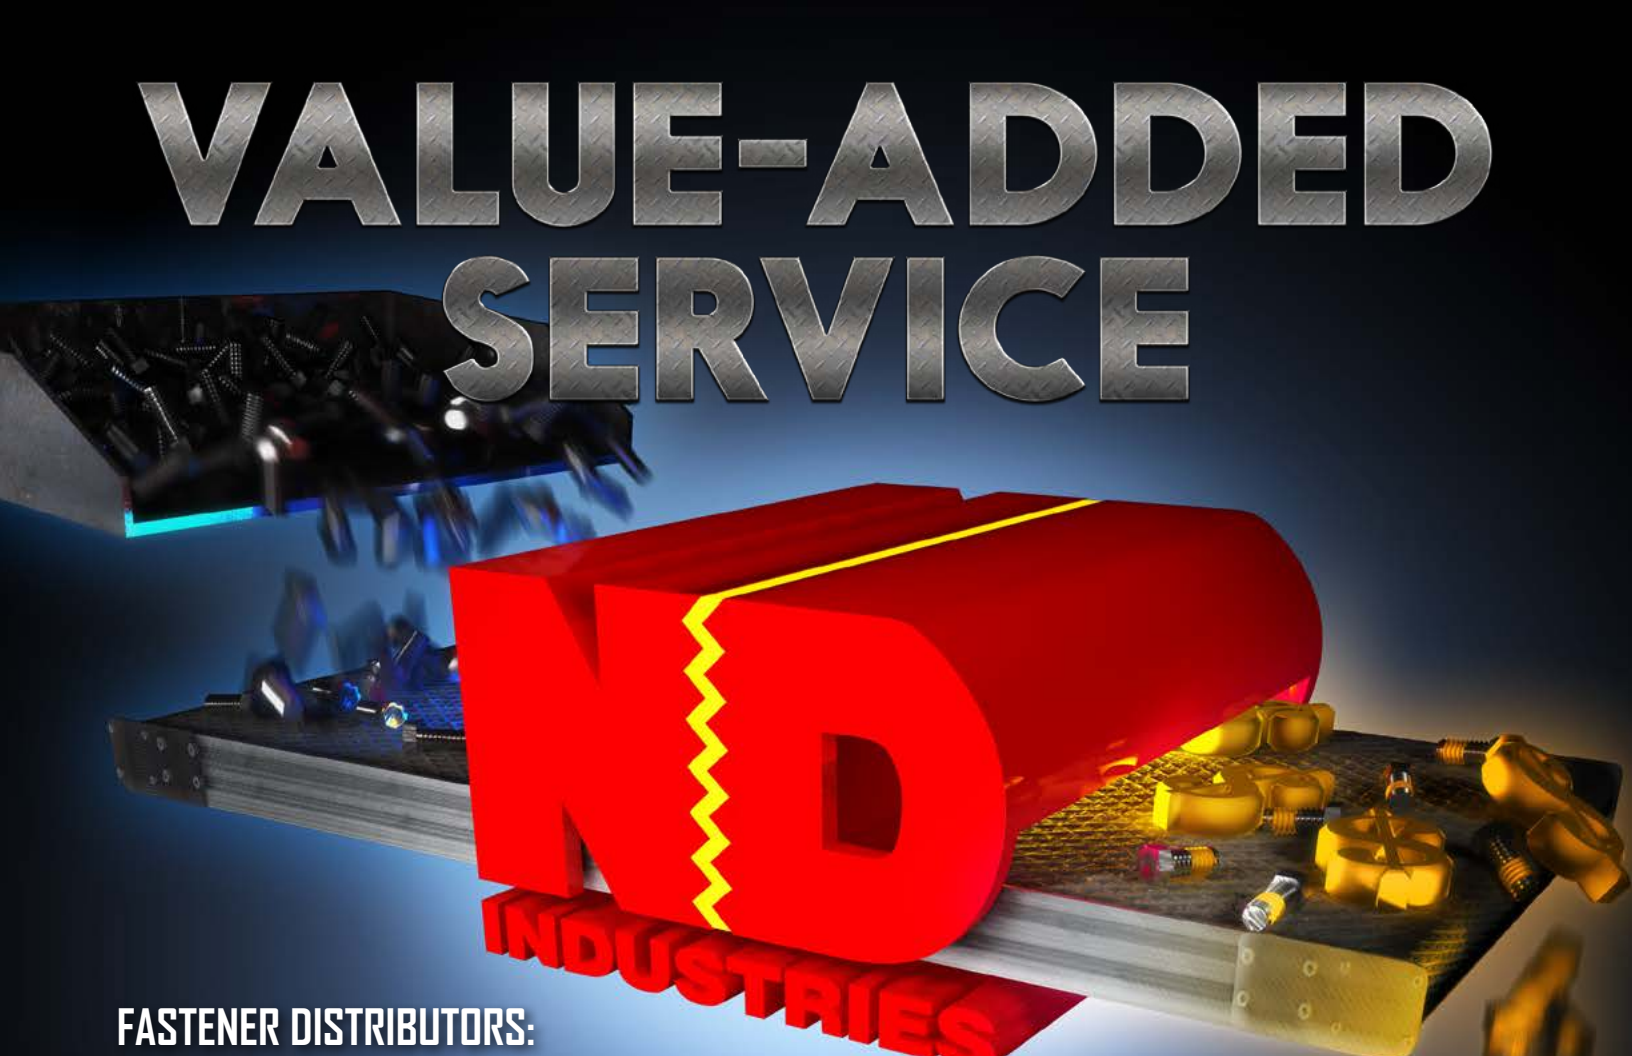

Celebrating **45 years of excellence** in the fastener industry, ITP extends gratitude to our dedicated team, valued vendors, and loyal customers who have contributed to our growth.

**ITP** continues to expand its reach and serve customers with locations in Brea, El Cajon, Rancho Cucamonga, Ontario, and Fresno.

# VALUE-ADDED SERVICE

FASTENER  
TRAINING  
INSTITUTE

## FASTENER TRAINING WEEK

Sponsored by:

NOVEMBER 17-21, 2025 | LOS ANGELES, CA

### ACCELERATED TRAINING FOR THE FTI CERTIFIED FASTENER SPECIALIST™ (CFS) DESIGNATION

Fastener Training Week features learning labs, interactive exercises and quizzes to reinforce learning taught by leading industry experts. The content includes manufacturing processes, consensus standards, quality control and includes a day of plant tours of manufacturing, secondary processes and testing facilities.

Instead of seven separate one-day classes, Fastener Training Week offers five intensive days of education and plant tours as part of the acclaimed FTI Certified Fastener Specialist™ (CFS) advanced technical training program. After completing this invaluable industry training in a small group environment and passing a final exam, attendees are eligible for the Certified Fastener Specialist™ (CFS) designation.

#### WHO ATTENDS?

- Fastener distributors
- End users
- Fastener manufacturers
- OEMs

#### TOPICS:

- Thread and material specifications
- Process and dimensional specifications
- Quality assurance systems and specifications
- Lot traceability and test reports
- Print reading and tolerances
- Thread gaging and dimensional inspection
- Torque tension

### PRICING

**\$3,300** first person per company

**\$2,800** each additional person per company

Prices increase **\$500** November 4

Additional **\$500** discount for Pac-West, NFDA, IFI, MWFA, NCFE, and SFA members.

Location Will Be Announced Soon

“The CFS program drastically shortened my learning curve regarding fastener specifications. The program materials were well organized and professional. Each instructor was very knowledgeable and infused the lesson topics with real world examples. CFS is a great program taught by excellent instructors.

This course helped me gain a solid understanding of mechanical engineering and develop the technical knowledge important to this field. It also makes me realize the complexities and challenges we face, and that makes the work even more interesting.”
